### Trip Summary

On this trip the scouts had lots-o-fun. The first day consisted of driving on roads that almost didn't exist and then setting up camp. That night us scouts had overcooked spaghetti while the adults had yummy, spicy, juicy, scrumptious hamburgers. Those evil people!

On the second day we woke up and had omelets. Dane had a special omelet without egg. After that all of us went to the opening ceremony accompanied by cannon blasts. Then we went off to do our multiple activities, black powder rifle shooting, bullet making, knife and tomahawk throwing, blacksmithing and much more. That night we had Dane's special, disgusting, partly dehydrated and then hydrated again Mac-n-Cheese.

On the last day we packed up camp and left.

### P.S.

The GOOD pancakes made by Dane on the last breakfast were yummy and NOT green!
